

DUCK NECKS

Snack made of 100 % meat

The Anifit dried treats are low in calories and are made of 100% meat.

Tartar on the teeth is also removed due to the longer chewing time required for dried meat. The dried treats are therefore not only recommended as a reward "treat" but also for ongoing maintenance of your pet's dental health.

During the gentle drying process carried out at temperatures up to 120 degrees Celsius, germs and bacteria are killed off ensuring the long shelf-life of the product without the addition of preservatives.

- Low-calorie treat for healthy teeth
- Air-dried, without additional preservatives
- All natural, without chemical additives

Feeding recommendation

To be given as a treat as required

Ingredients
